SECTION 2: WAGE INDEX DESK REVIEW PROCEDURES (FORM CMS-2552-10, WORKSHEET S-3, PARTS II AND III, and S-3, Part IV WAGE DATA)						
2 General	MACs shall conduct a desk review on the wage data for all short-term acute inpatient prospective payment system (IPPS) hospital cost reports (including hospitals in the State of Maryland, which are operating under a State cost control system), for cost reporting periods beginning on or after October 1, 2014, through September 30, 2015, (that is, FY 2015 wage data).	System Verification: N/A.				
2 General	MACs shall conduct the desk review on only one of the reporting periods for hospitals that have more than one cost reporting period beginning during FY 2015. Select the longest period; if there is more than one period of that length, select the latest period.	System Verification: N/A.				
2	MULTICAMPUS HOSPITAL DATA					
2	MACs shall verify the information on Worksheet S-2, Part I, Lines 165 and 166 of form CMS- 2552-10 to determine if a hospital is a multicampus provider with facilities in different CBSAs. If a hospital answered Y for Yes to line 165, verify that the main campus and the off-site campus(es) are each classified as section 1886 subsection (d) hospitals, or they are located in Puerto Rico, i.e., the campuses are paid under the IPPS. If a campus(es) is not paid under the IPPS, then change the response to line 165 to N, if appropriate, and delete the non-IPPS campus's information from line 166. Note: At the time the hospital filled out these lines in its cost report beginning on or after 10/1/14 and before 9/30/15, it is possible that the multi-campus provider had campuses located only in a single CBSA but after FY 2015, has since created campuses located in different CBSAs. For the purpose of properly apportioning the FY 2015 cost report data for the FY 2019 wage index, MACs shall ensure that lines 165 and 166 are properly completed reflecting the campuses in existence during the FY 2015 cost reporting period, and NOT reflecting the status for a subsequent cost reporting period.
